SRIMAN TIRUPATHY ESHWARAPPA

Associate Director – Integration & Platform Engineering (MuleSoft)

Bengaluru, India | Phone: +91 99629 86565 | Email: shrimante@gmail.com | LinkedIn

---

SUMMARY

Technology leader with ~20 years building enterprise integration platforms and API ecosystems across healthcare, telecom, and retail. Deep expertise in MuleSoft and Java across Runtime Fabric on OpenShift, CI/CD, governance, security, DR, and observability. People leader (15+ team) translating architecture into repeatable delivery outcomes. Beginner-level skills in AI/ML, GenAI, and Agentic AI.

SELECTED IMPACT

- Led 7+ programs delivering 120+ production APIs across MuleSoft + Java.
- Built hybrid MuleSoft platform (RTF/OpenShift + F5) with GitLab CI/CD; +40% deploy throughput.
- Owned enterprise API strategy for 100+ APIs; 99.9% uptime for 5M+ members; +25% release speed.
- Migrated from Informatica ESB to Anypoint; cut ~3 weeks/cycle; saved ~$250K/year.
- Managed 15+ engineers; +18% sprint velocity; aligned delivery to $10M+ initiatives.

CORE COMPETENCIES

- Integration & Platform: API-led connectivity, Solace eventing, reusable patterns, enablement.
- Architecture: HLD/LLD, NFRs (QCD), microservices, cloud-native, modernization.
- Governance & Security: API lifecycle, RBAC, OAuth/TLS/SLA, HIPAA-aligned controls.
- Reliability & Ops: DR/BCP, observability (Splunk/ELK/Anypoint), incident leadership.
- Execution: CI/CD (GitLab/Jenkins/Azure DevOps), mUnit/Postman, Agile (ART/PI).
- People Leadership: hiring, mentoring, performance management, architecture boards.

EXPERIENCE

Senior Technical Architect – MuleSoft (Services) | Bengaluru, India | Current

- Lead a 15-member integration team; drive design governance and MuleSoft standards.

Principal Architect – MuleSoft & Integration | Red Sea Global | Bengaluru, India | Dec 2017 – Oct 2024

- Scaled hybrid MuleSoft runtime on RTF (OpenShift) + F5; improved deployment throughput by 40%.
- Set API governance + security (OAuth/TLS/SLA, RBAC); standardized delivery across 50+ APIs.
- Owned HLD/LLD + NFRs (QCD); aligned architecture with stakeholders and enterprise standards.
- Migrated Informatica ESB → Anypoint; cut ~3 weeks/cycle; delivered ~$250K annual savings.
- Built event-driven integrations with Solace + MuleSoft using pub-sub and request-reply.
- Built GitLab CI/CD for APIs and Mule apps; automated build/deploy/versioning.
- Implemented observability via Anypoint Monitoring + Splunk/ELK; improved incident response.
- Mentored 12 engineers; ran design reviews; built wikis/templates/change logs.

Engineering Architect Manager (Healthcare) | Tamil Nadu, India

- Directed API strategy + governance for 100+ APIs; ensured HIPAA and enterprise security alignment.
- Led ART PI/sprint planning; owned RAML→mUnit/Postman→CI/CD lifecycle for API delivery.
- Automated delivery with Jenkins/GitLab/Azure DevOps; improved predictability and speed.
- Managed 15+ engineers; hiring/performance leadership; ensured on-time go-lives.

EARLIER CAREER (SELECTED)

- Integration Consultant, UK (2006–2010): Mule modules/connectors; DHL/DPD/RoyalMail logistics.
- Tech Lead, Bengaluru (2011–2013): MuleSoft RPA/ITSM; ServiceNow/Ansible; Git/Ansible connectors.
- Sr Tech Lead, Bengaluru (2013–2016): Java SOA for activations/payments/plan changes; fewer incidents.
- Tech Consultant, Bengaluru (2011): Biometric SSO (OAuth/OIDC) + performance monitoring at scale.

TECHNOLOGY

- Integration: MuleSoft (CloudHub/RTF/On-Prem), Java, Spring Boot, REST/RAML, mUnit, Postman.
- Messaging: Solace; familiar with Kafka/RabbitMQ patterns.
- Platforms: OpenShift, Kubernetes, Docker; F5.
- CI/CD: GitLab, Jenkins, Azure DevOps; release automation + env governance.
- Observability: Splunk, ELK, Anypoint Monitoring.

- Cloud: AWS, Azure, GCP (delivery + platform integration).

AWARDS

- Employee of the Year (Virtusa, 2023): delivered mission-critical healthcare APIs at scale.

CERTIFICATIONS

- MuleSoft Certified Integration Architect – 2019
- MuleSoft Certified Platform Architect – 2019
- MuleSoft Certified Developer – 2019
- AWS Machine Learning Specialty – in progress

EDUCATION

- B.E., Electronics & Telecommunications – VTU, Karnataka (Jun 2006)
- High School Diploma – Karnataka P. U. Board (Mar 1999)
